

```
half_float::detail  
::enable< T, typename,  
typename, typename >
```

A diagram illustrating a C++ template specialization. It consists of two rectangular boxes. The top box is gray and contains the text 'half_float::detail' followed by a line break and '::enable< T, typename, typename, typename >'. The bottom box is white with a black border and contains the text 'half_float::detail' followed by a line break and '::result< half, half >'. A blue arrow points vertically from the bottom box to the top box, indicating that the bottom code is a specialization of the top code.

```
half_float::detail  
::result< half, half >
```
