

half\_float::detail  
::functions::frexp

```
graph LR; A["half_float::detail  
::functions::frexp"] --> B["half_float::detail  
::functions::exp"]
```

A diagram showing a call from the `frexp` function to the `exp` function. A blue arrow points from the left box to the right box.

half\_float::detail  
::functions::exp
