

half_float::detail
::functions::rint

```
graph LR; A["half_float::detail  
::functions::rint"] --> B["half_float::detail  
::round_half"]; B --> C["half_float::detail  
::round_half_impl"]
```

The diagram illustrates a sequence of three function calls. The first box, with a gray background, contains the text 'half_float::detail' and '::functions::rint'. A blue arrow points from this box to the second box, which has a white background and contains 'half_float::detail' and '::round_half'. Another blue arrow points from the second box to the third box, which also has a white background and contains 'half_float::detail' and '::round_half_impl'.

half_float::detail
::round_half
