

half\_float::detail  
::functions::hypot

```
graph LR; A["half_float::detail  
::functions::hypot"] --> B["half_float::detail  
::builtin_isinf"]
```

A diagram showing a call from the `hypot` function to the `builtin_isinf` function. A blue arrow points from the left box to the right box.

half\_float::detail  
::builtin\_isinf
