

```
half_float::detail  
::round_half_up
```

```
graph LR; A["half_float::detail  
::round_half_up"] --> B["half_float::detail  
::round_half_impl"]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text `half_float::detail` and `::round_half_up` on two lines. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text `half_float::detail` and `::round_half_impl` on two lines.

```
half_float::detail  
::round_half_impl
```
